OBJECTIVE

I am looking for an internship for a company that I could not only be able to contribute to right away, but also learn a large myriad of skills in return. I am currently extremely interested in being a full-stack web developer, focusing on both UI/UX design as well as the back-end functionality on websites. I am eager, hard-working, and very flexible in terms of learning, both independently as well as with others.

SKILLS

- Java
- JavaScript
- JQuery
- HTML
- CSS
- Public Speaking
- MATLAB
- Bootstrap
- Project Management
- Microsoft Office
- Leadership
- Customer Service
- Communications
- UI/UX Design
- Public Relations
