PROJECTS

GRAPE | PRODUCT OWNER / FULL STACK WEB DEVELOPER | grapeapp.herokuapp.com JAN '16 – MAR '16

Mobile web application that encourages users to perform and keep track of good deeds

- Conducted in-person field work for user testing of around 100 subjects with a team of three
- Implemented intuitive html architecture with the use of Handlebars and JQuery
- Employed A/B testing to determine whether buttons or lists would result in more page clicks

MULTI-ASIAN STUDENT ASSOCIATION | WEB DEVELOPER | masa.ucsd.edu FEB '16 – APR '16

Official website for the largest social-cultural organization at UCSD

- Designed a responsive, user-friendly web interface using HTML, CSS and Bootstrap
- Created scroll listeners in JavaScript to implement reoccurring animations.
- Advertised website largely through Facebook and word-of-mouth for an audience of over 2,000.

WORK HISTORY

KARMONIZE | WEB DEVELOPER | karmonize.org | San Diego, CA MAY '16 – PRESENT

A modern social bartering system in which currency is spent and received via everyday services

- Independently picked up weekly tasks to complete via team discussion board during development
- Attained valuable, first-hand experience concerning version control and responsive design
- Created front-end views to show informative data in intuitive and visual ways

UCSD DEAN'S OFFICE, SCHOOL OF MEDICINE | STUDENT PROGRAMMER | San Diego, CA JULY '16 – PRESENT

Worked inclusively with business partners to achieve efficient application services for all departments

- Created secure, documented, normalized, indexed, and efficient database schemas
- Reviewed database schema from a strategic perspective for data synergies using MySQL
- Incorporated stakeholder feedback to create approvals that followed authorization hierarchies
- Maintained extensive documentation through mediawiki to facilitate succession

BREWNGO | WEB DEVELOPER/WEB DESIGNER | Brewngo.com | San Diego, CA JULY '16 – PRESENT

Startup company introducing the world's first automatic and portable coffee/tea brewer

- Implemented third-party applications such as Squarespace to ideate quick templates and designs
- Researched competitive marketplace and their websites to learn how to tailor to audience experience
- Explored different forms of user testing such as crazy eggs to generate visitor heatmap of website

FUSION HIP-HOP DANCE COMPETITION | SPONSORSHIP TEAM MEMBER | San Diego, CA JAN '16 – APR '16

Largest, entirely student-run dance competition in the West Coast

- Sought business partners to donate and/or hold fundraisers for the competition
- Marketed the Fusion organization to gain partnership and donations from businesses
- Developed and refined public relation skills by maintaining contact with collaborating donors
- Raised a total of \$2500 over 4 months, exceeding projected goal for a profit of \$1200
