OBJECTIVE

I am looking for an internship for a company where I would not only be able to contribute to right away, but also learn a large myriad of skills in return. I am currently extremely interested, eager, and enthusiastic about full-stack web development, focusing on both UI/UX design as well as the back-end functionality on websites.

SKILLS

- Java
- HTML
- MATLAB
- Microsoft Office
- Communications

- JavaScript
- CSS
- Bootstrap
- Leadership
- UI/UX Design

- JQuery
- Public Speaking
- Project Management
- Customer Service
- Public Relations
